

## **Jordan & Jordan Appoints Barry Raskin as Managing Director, Market Data Services**

**New York, NY – July 17, 2017** – Jordan & Jordan, a financial technology company that provides Market Data, Regulatory, and Trading Solutions across the Securities Industry, announces the promotion of Barry Raskin to Managing Director of the Market Data Services Practice. Continuing the pattern of strong, knowledgeable Market Data leadership, previously set by Leo Vozel and Tom Etheridge, Barry will focus on expanding the Market Data Reporting (MDR) product along with our other exceptional Market Data Consultancy Services. Barry's extensive contributions in the Market Data industry has garnered a nomination for the FISD's 2017 Lifetime Achievement Award. This award recognizes those individuals who have impacted the major developments and accomplishments of the financial information industry.

Barry's appointment represents a continued emphasis on the strategic growth of the J&J Market Data practice as clients continue to encounter issues with data usage, reporting and compliance. Barry stated, "It is an enviable position to manage the leading Market Data practice in the industry. J&J has become the "go to" advisory service for financial institutions for over 25 years."

Tom Jordan, President of Jordan & Jordan said, "This is an exciting time for Barry to be taking over the Market Data area as the growth in market data revenue for exchanges and vendors is expanding due to changes in data policies, technology and distribution."

Barry has the advantage of having Tom Etheridge, the outgoing Managing Director, available on a limited basis as he will continue to work on select projects for J&J as a Senior Advisor. Over the last 6 years, J&J has consistently won the Best Supporting Services Provider distinction from Inside Market Data. Under Barry's guidance, J&J hopes to carry forward that tradition.
