**Jordan & Jordan Selected as “Best Supporting Services Provider”**

**May 19, 2016** – Jordan & Jordan (J&J) was awarded the “Best Supporting Services Provider” award at the 2016 Annual Inside Market Data and Inside Reference Data ceremony held at the Marriot Marquis in New York. The award recognizes excellence in providing clients with high quality services and effective solutions to meet their market data challenges. Despite competition from other well-respected firms, J&J gathered the most votes from the sell side brokers and asset managers / hedge funds responsible for the management of market data.

“We are extremely honored that our customers have recognized us as a leader in professional services and experts in the market data industry,” said Tom Etheridge, Managing Director of Market Data Services. “This is the fifth time J&J has won this award since its inception in 2010, and it goes without saying that the positive feedback from industry participants is the highest possible compliment J&J could receive.”

Customer satisfaction has always been and will always be a key driver as J&J continues to carve out strategic plans to meet the market data needs of the industry.
